Adopt A Pet And Get A Companion For Life

The RSPCA of PNG runs Adoption and Fostering programs for animals who have been surrendered, abandoned or rescued. All animals approved for adoption are neutered, vaccinated, de-wormed and clinically checked before they are released to their new home. We have dogs and cats, puppies and kittens on our programs. Our adoption and foster program fees are K120.00 for dogs and K85.00 for cats.

Ricko found his forever home through our program

Pictured is 7-year-old mixed-breed Ricko with his uncle, Job. Ricko found his forever family through our adoption program. He attended this year's Paws Walk on Sunday 15th October and thoroughly enjoyed the morning walk. His family are proud of him.

Ricko has two furry siblings, Mysee who is a 2-year-old German Sheppard cross, and Dahlia who is a 4-year-old female cat. Ricko takes his responsibility as leader of the pack very seriously and always ensures the safety and wellbeing of his pack, furry and human.

His daily routine includes greeting his mother when she arrives home from work in the evenings. In the mornings, Ricko escorts his sister (who attends school at Waigani Christian Academy) to their front gate and ensures she gets on the school bus safely.

During the day, he watches the family home and makes sure that none of the other furry friends play in his mother's

flower garden.

He is very much appreciated and loved.

Three sisters URGENTLY need to find a good, loving home

Rosie, Molly and Loki are three siblings who grew up in our shelter. They were rescued from the streets after their mother abandoned them.

They are now 11 months old and have grown into unique individuals. Molly is the most affectionate one and enjoys cuddles. Loki has the most energy and finds it entertaining to run up and

down the cat tree and speed around the cattery. Rosie is Miss Boss. She will allow you to cuddle with her and often likes to play with toys.

We would love to rehome them soon. It would equally be wonderful if all three could go to the same family.

Loki

Rosie

Molly
